

June 9th - 11th, 2022

Dr. Joseph Kan

*Anterior Implant Esthetics
1995-2022: Fantasy VS Reality*

Palma de Mallorca
Spain

ABOUT DR. JOSEPH KAN

Dr. Joseph Kan completed his specialty training in Prosthodontics as well as the as well as the Masters degree from the Advanced Education In Implant Dentistry at Loma Linda University School of Dentistry (LLUSD) in 1997. He is currently a Professor in the Department of Restorative Dentistry and the research coordinator for the Implant Dentistry Program at LLUSD. He also maintains a private practice limited to Prosthodontics and Implant Surgery.

In 1997, Dr. Kan was the recipient of the Best Research Award in the 12th annual meeting of the Academy of Osseointegration. He also received the Judson C. Hinckey Scientific Award from the Journal of Prosthetic Dentistry in 2003 and the Robert James Achievement Award in 2005.

Dr. Kan is on the Periodontology/Implantology Editorial Board of the Practical Periodontics & Aesthetic Dentistry. He is a member of the American Dental Association, Academy of Osseointegration, American College of Prosthodontists, American Academy of Fixed Prosthodontics and an associate member of the Pacific Coast Society of Prosthodontists.

Dr. Kan is one of few clinicians worldwide that has been trained in both the surgical and restorative discipline of implant dentistry. In addition to lecturing nationally and internationally, he has published over 70 articles in reference journals and chapters in textbooks.

COURSE / SUMMARY / OBJECTIVES

Anterior Implant Esthetics 1995-2022; Fantasy vs. Reality

Achieving anterior implant esthetics is challenging and demanding. Because of that, there is a 'wow factor' when showing amazing and unbelievable cases. However, can one delineate fantasy from predictable reality? Creating implant restorations with harmonious gingival contour that emulate nature is a fusion of some science and lots of art. Understanding the biologic and physiologic limitations of soft and hard tissue is key to facilitate predictability in complex esthetic situations.

This course will focus on current implant treatment philosophies and methodologies for replacing currently missing teeth and the management of patients who will be losing a tooth or teeth in the esthetic zone. Emphasis will be placed on diagnosis and treatment planning of complex cases and complication management, interdisciplinary treatment options, occlusion management, and soft and hard tissue regeneration for optimal anterior implant esthetics.

Course objectives:

- **Biologic prognostic keys for predictable implant esthetics**
- **Immediate vs. delayed vs. early tooth replacements concepts: What do we know, what we do not know & what we think we know**
- **Bone & soft tissue regeneration concepts: What is possible?, what is not? & what are the limitations?**
- **Papilla management**
- **Gingival recession and papilla loss; etiology and treatment solutions**
- **Management of surgical and prosthetic complications**
- **Pink prosthetic gingiva concepts**
- **Interdisciplinary treatment concepts (ortho, perio & prosthodontics)**
- **What can we learn from long-term case follow-up; (5, 10, 15, 20+ years)**
- **Esthetics restorative emergence profile contouring (from provisionalization to final crown)**
- **Root shield: What I learned over the past 9+ years?**
- **Occlusion in the esthetic zone: concepts and management**

DAY 1 - PRE-COURSE

8:30 - 9:00

Registration + Breakfast

9:00 - 9:15

Dr. Kan course and specializED introduction

Dr. Aina Mesquida
Dr. Juan Mesquida

9:15 - 10:00

Diagnostic and treatment planning key factors in implant supported full mouth rehabilitations

10:00 - 10:45

Veneers: A new strategy

Dr. Ignacio Ginebreda
Mr. Stefano Esposito

10:45 - 11:15

Coffee break

11:15 - 12:00

Implants: "A to Z of the digital workflow" & Teeth: "BOPT digital and analogic protocols for clinical data acquisition and registration"

Dr. Ferran Llansana

12:00 - 12:45

Behind the Smiles-Creative Moments: An evolution of CAD/CAM vs Analog Materials in dentistry

Mrs. Inge Magne
Dr. Herminio García

12:45 - 13:30

The perio-pros synergy in the rehabilitation of implant supported prosthesis in the esthetic zone

13:30 - 14:30

Lunch break

14:30 - 15:15

Soft tissue management around dental implants

Dr. Juan Zufia

15:15 - 16:00

Implant Esthetics 2005-2020 : A humbling experience

Dr. Olivier Henry-Savajol

16:45 - 17:30

The single missing mandibular incisor: The ultimate surgical-restorative challenge

Dr. Juan Mesquida
Dr. Aina Mesquida
Dr. Juan Mesquida

17:30 - 18:00

Q&A

DAY 2 - DR. KAN

8:00 - 8:30

Breakfast

8:30 - 10:45

Introduction
Biologic prognostic keys for predictable implant esthetics
Immediate vs. Delayed vs. Early tooth replacements concepts: What do we know, what we do not know & what we think we know

10:45 - 11:15

Coffee break

11:15 - 13:30

Bone & soft tissue regeneration concepts: What is possible?, what is not? & what are the limitations?
Papilla management
Gingival recession and papilla loss; etiology and treatment solutions

13:30 - 14:30

Lunch break

14:30 - 18:30

Management of surgical and prosthetic complications

DAY 3 - DR. KAN

8:00 - 8:30

Breakfast

8:30 - 10:45

Pink prosthetic gingiva concepts
Interdisciplinary treatment concepts (ortho, perio & prosthodontics)

10:45 - 11:15

Coffee break

11:15 - 13:30

Esthetics restorative emergence profile contouring (from provisionalization to final crown)
What can we learn from long-term case follow-up; (5, 10, 15, 20+ years)

13:30 - 14:30

Lunch break

14:30 - 18:30

Occlusion in the esthetic zone: Concepts and management
Root Shield: What I learned over the past 9+ years?

18:30 - 19:00

Concluding remarks, Q&A and event finalization. Diplomas

PRE-COURSE SPEAKERS

Dr. Juan Zufia

"Soft Tissue Management Around Implants"

Dr. Ignacio Ginebreda

"Diagnostic and treatment planning key factors in implant supported full mouth rehabilitations"

Inge Magne, MDT

"Behind the Smiles-Creative Moments: An evolution of CAD/CAM vs Analog Materials in Dentistry."

Dr. Herminio García

"The perio-pros synergy in the rehabilitation of implant supported prosthesis in the esthetic zone"

Dr. Olivier Henry-Savajol

"Implant Esthetics 2005-2020 : A humbling experience"

Dr. Aina Mesquida

Event moderation and Q&A

Dr. Ferrán Llansana

Implants: "A to Z of the digital workflow" & Teeth: "BOPT digital and analogic protocols for clinical data acquisition and registration"

Stefano Esposito, MDT

"Veneers: A new Strategy"

Dr. Juan Mesquida

Event moderation and Q&A

"The single missing mandibular incisor: The ultimate surgical-restorative challenge"
